PROFESSIONAL SUMMARY

Marketing Data Analyst with hands-on experience in campaign performance, funnel analysis, customer segmentation, A/B testing, and KPI reporting. Skilled in SQL, Python, Power BI, Tableau, Looker Studio, and GA4, with experience analyzing conversion, CTR, ROI, retention, and customer behavior to support marketing decisions. I am now looking for an opportunity to prove what I can do and create meaningful impact through data.

CORE SKILLS

Python, SQL, PostgreSQL, BigQuery, AWS (S3) | Power BI, Tableau, Looker Studio, Excel | Product, Marketing & Business Analytics | Dashboarding, KPI Reporting, A/B Testing, Forecasting, Statistical Analysis | ETL, Data Modeling, dbt | Google Analytics (GA4), Google Ads, CRM Tools | Git, GitHub | OpenAI, n8n, Workflow Automation, API Integration

PROFESSIONAL EXPERIENCE

Performance Marketing & Analytics Analyst | WhatYouTech | Aug 2022 – Sep 2024 | Hybrid | Navi Mumbai, MH. India

- Managed campaign performance using spend, CTR, conversions, and ROI to support ongoing optimization.
- Built SQL funnel, cohort, and segmentation analyses to uncover drop-offs, audience trends, and growth opportunities.
- Designed and evaluated A/B tests across 8K–15K users, contributing to a 10–12% increase in CTR.
- Built KPI dashboards tracking conversions, ROI, campaign trends, and budget efficiency.
- Applied retention and behavioral analysis to refine targeting and support a 15–20% improvement in campaign ROI.

Web & Analytics Developer | ThoughtStart | Dec 2021 – Jul 2022 | Remote | Navi Mumbai, MH. India

- Implemented Google Analytics tracking and KPI monitoring for an LMS platform with 10K+ monthly users.
- Analyzed user behavior and website performance, helping reduce bounce rate from ~58% to ~46%.
- Built dashboards and reports tracking engagement, enrollment, and website performance trends.
- Supported AWS-based content workflows and digital asset management across the platform.

Analytics & Marketing Intern | Ono Teas | Jul 2021 – Sep 2021 | On-Site | Navi Mumbai, MH. India

- Supported campaign analytics across 5+ client accounts, tracking traffic, engagement, and conversions.
- Used HubSpot and Bitrix24 CRM to manage leads, campaign activity, and customer interactions.
- Analyzed CRM data to identify lead behavior, follow-up patterns, and customer journey trends.
- Built campaign reports to monitor performance and support day-to-day marketing decisions.

KEY ANALYTICS PROJECTS

E-Commerce Sales Performance Analysis | SQL, BigQuery, Looker Studio | 2026 | 🔗

- Analyzed 1M+ transactions to identify customer behavior, revenue drivers, and conversion trends.
- Built funnel analysis identifying a ~30% checkout drop-off and key conversion opportunities.
- Developed KPI dashboards tracking revenue, AOV, conversion, and customer performance.

AI Job Search Command Center | n8n, OpenAI API, Gmail API, Google Sheets, Google Calendar | 2026 | 🔗

- Built an AI workflow for job discovery, application tracking, recruiter outreach, and interview scheduling.
- Integrated Gmail, Google Sheets, and Calendar through n8n and APIs to centralize job-search workflows.

Enterprise AML Compliance Platform | PostgreSQL, Python, SQL, ETL, Data Modeling | 2026 | 🔗

- Designed a PostgreSQL banking database for customers, accounts, transactions, and AML analytics.
- Built Python pipelines generating 10K customers, 12K accounts, and 18K beneficiaries with risk attributes.
- Developed staging-to-core ETL workflows with SQL validation for duplicates, foreign keys, and business rules.

Data Job Market Analysis – Germany | Python, Pandas, NumPy, Matplotlib | 2026 | 🔗

- Processed 50K+ job postings to analyze skill demand, salary trends, and market patterns across Germany.
- Built automated preprocessing workflows to reduce manual analysis effort by ~40%.
- Identified high-demand skill clusters and salary trends to support market intelligence insights.

EDUCATION

M.Sc. Data Analytics | Berlin School of Business & Innovation, Berlin | Feb 2024 – Sep 2025 | GPA: 2.3/5

- Key Modules: Machine Learning, Tableau, Python for Data Analytics, Predictive Analytics

B.E. Information Technology | University of Mumbai, India | Aug 2019 – Jul 2023 | GPA: 8.6 / 10

- Key Modules: DBMS, Data Warehousing, Data Structures & Algorithms

LANGUAGES

English (Fluent) | German (B1/B2 – Intermediate) | Hindi (Native)
