Nitin Nilesh Singh

DATA ANALYST | MARKETING & CUSTOMER ANALYTICS

Berlin, Germany | +49 1573 8774794 | nitinsingh.web07@gmail.com

LinkedIn | Portfolio | GitHub | German work permit valid to March 2027

PROFILE

Data analyst with a background in web development, digital marketing, and CRM across B2B services, B2C e-commerce, and wholesale. I combine customer understanding with SQL, Python, and dashboard projects to investigate business questions and communicate clear findings.

CORE SKILLS

Analysis: SQL, Python, Pandas, BigQuery, Looker Studio, Power BI, Tableau, Excel

Marketing: CRM, Google Analytics, customer behaviour, B2B/B2C, on-page and off-page SEO

Data workflows: dbt, n8n, API integration, Git and GitHub

PROFESSIONAL EXPERIENCE

WhatYouTech | Performance Marketing & Analytics Analyst | Aug 2022 - Sep 2024

- Used CRM data to understand customer behaviour in a team helping brands and business clients grow digitally through websites and advertising.

ThoughtStart | Web & Analytics Developer | Dec 2021 - Jul 2022

- Worked across web development and website analytics, connecting technical work with an understanding of user journeys and engagement.

Ono Teas | Analytics & Marketing Intern | Jul 2021 - Sep 2021

- Used CRM data to understand customers in a tea business serving both consumers and wholesale merchants.
- Worked in a B2C and B2B environment spanning website, social media, advertising, and bulk sales through multiple wholesale channels, including Alibaba.

SELECTED ANALYTICS PROJECTS

E-Commerce Sales Analysis | SQL, BigQuery, Looker Studio

- Joined order, product, and customer data; built sales, category, country, and spend-segment analyses with a dashboard. Source exports contain 180,812 order items and 124,649 orders.

German Data Job Market | Python, Pandas, Matplotlib, Seaborn

- Parsed and expanded skill lists, compared demand by role, and explored salary patterns in public job-posting data. Distinguished the salary-reported subset from the broader sample.

AI Job Search Command Center | n8n, OpenAI, Google APIs

- Built a personal prototype with six workflow exports: one supervisor and five workflows for email, application records, interviews, calendar context, and job discovery.

EDUCATION

M.Sc. Data Analytics | Berlin School of Business & Innovation | Feb 2024 - Sep 2025

B.E. Information Technology | University of Mumbai | Aug 2019 - Jul 2023
