PROFESSIONAL SUMMARY

Marketing and customer analytics professional with B2B and B2C experience across campaign analysis, Google Analytics, CRM, and SEO. Uses SQL, Python, and dashboards to investigate customer behaviour and business performance. Interested in growth and go-to-market analytics, with a habit of asking **"but why?"** when the numbers move.

CORE SKILLS

Analysis: SQL, Python, Pandas, BigQuery, Excel, Data Cleaning, Exploratory Data Analysis
Reporting: Power BI, Tableau, Looker Studio, KPI Dashboards, Data Visualization
Marketing: Google Analytics, Campaign Analysis, Customer Journeys, Segmentation, A/B Testing, On and Off Page SEO
Further Tools: HubSpot, Bitrix24, dbt, n8n, Git, API Integration

PROFESSIONAL EXPERIENCE

Performance Marketing & Analytics Analyst | WhatYouTech | Aug 2022 – Sep 2024 | Hybrid | Navi Mumbai, MH, India

- Analyzed campaign spend, click-through rate (CTR), conversions, and return on investment (ROI) to support optimization for B2B clients.
- Used SQL for funnel, cohort, and customer segmentation analysis to investigate audience behaviour.
- Built KPI dashboards tracking campaign trends, conversions, and budget efficiency.
- Supported A/B testing and retention analysis to refine targeting and inform campaign decisions.

Web & Analytics Developer | ThoughtStart | Dec 2021 – Jul 2022 | Remote | Navi Mumbai, MH, India

- Implemented Google Analytics tracking and monitored user engagement on a learning management system (LMS).
- Built reports covering user behaviour, enrollment, and website performance trends.
- Supported web development, AWS content workflows, and digital asset management.

Analytics & Marketing Intern | Ono Teas | Jul 2021 – Sep 2021 | On-Site | Navi Mumbai, MH, India

- Used HubSpot and Bitrix24 CRM to manage leads, campaign activity, and customer interactions.
- Analyzed customer journeys across B2C sales and multiple B2B wholesale channels.
- Prepared campaign reports tracking website traffic, engagement, and conversions.

Earlier Experience:
Built freelance websites and worked directly with clients to understand requirements and user journeys.

KEY ANALYTICS PROJECTS

E-Commerce Sales Performance Analysis | SQL, BigQuery, Looker Studio | 2026 | View

- Joined order, product, and customer data covering 180,812 order items and 124,649 orders to investigate sales patterns.
- Built a dashboard exploring category performance, geographic concentration, and customer spending segments.

AI Job Search Command Center | n8n, OpenAI API, Gmail API, Google Sheets, Google Calendar | 2026 | View

- Built a chat-based prototype connecting email, applications, calendars, and job discovery.
- Created six workflow exports with API integrations and structured outputs to organize tool data.

Enterprise AML Compliance Platform | PostgreSQL, Python, SQL, ETL, Data Modeling | 2026 | View

- Established the initial repository, environment template, and Raw, Bronze, Silver, and Gold data-layer folders.
- Defined the project direction for anti-money laundering risk analysis and reporting, with implementation in progress.

Data Job Market Analysis – Germany | Python, Pandas, NumPy, Matplotlib | 2026 | View

- Cleaned historical public job postings and parsed skill lists to compare demand across data roles in Germany.
- Visualized skill and salary patterns, reporting sample sizes and distinguishing records with salary data.
